or visit [www.portlandlibrary.com](http://www.portlandlibrary.com)

Troy Moon, Sustainability Coordinator for the City of Portland, will present "One Climate Future: Charting a Course for Portland and South Portland" at our next Sustainability Series program.

Our businesses, neighborhoods, and way of life are worth protecting. Knowing our future will be impacted by climate change, we must collectively work to ensure that our communities continue to be places of opportunity.

The Cities of Portland and South Portland are taking the lead on this by developing a joint climate action and adaptation plan. The goal of this planning process is to make our communities even stronger tomorrow than we are today.
